PANDEMIC UNEMPLOYMENT ASSISTANCE (PUA) BENEFITS ARE

Pandemic Unemployment Assistance (PUA) benefits you receive are taxable income. It is your responsibility to determine the amount of your tax liability for federal and income taxes and pay the amount due. You can choose to have federal income tax withheld from your PUA benefit at a rate of 10%. You can make your choice when you file a new claim or at a later time during your benefit year. If you elect withholding your federal income tax, you are permitted only one change during your benefit year to stop withholding. All withholding amounts are paid to the federal taxing authority and cannot be retrieved by AS-DHR.

If you do not have taxes withheld, you may need to make estimated tax payments. For more information on estimated tax payments and schedules, see Internal Revenue Service (IRS) Publication 505, "Tax Withholding and Estimated Tax" or the instructions for Form 1040-ES for federal income tax requirements. For general information and form instructions, www.irs.gov. For information about forms and instructions for AS tax, please contact the AS Department of Treasury, Tax Office, 633-4155.
