**GOVERNOR LOLO M. MOLIGA'S
MOTHER'S DAY MESSAGE**

Mother's Day is a very special day in all of our lives because all of us have our moms in a very special place in our hearts, and we are all honored, privileged, and thankful that we are their children for since our birth, our moms nurtured us, prayed over us, worried over us, mentored us, encouraged us, and unconditionally loved us no matter the circumstances.

Our Mothers epitomize values of patience, tolerance, understanding, charity, commitment, compassion, sharing, forbearance, forgiving, stability, overlooking our weaknesses and human frailties, along with being our source of strength, the wind beneath our wings, and giving courage and the confidence that we can soar like eagles, and we can accomplish anything.

Our Mothers are the stabilizing and the calming forces within our families, and the glue that binds families together amidst adversities and challenges. Our mothers make sure that our home environment within which we grew up were and are the most nurturing, most loving, most sheltered, with great vigilance and diligent in making sure that future opportunities are not shattered because of the deadly clutches of drugs and other illicit substances.

As we try to weather and continue to escape the pernicious effects of the COVID-19 pandemic, our Mothers' embrace and loving leadership will play a significant role in making sure that our respective families will not succumb to the deadly effects of the Coronavirus.

On behalf of Lieutenant Governor Lemanu, Ella and their family along with Cynthia and our family, I extend to all Mothers of American Samoa on island and abroad our best Mother's Day Wishes and we pray that our Most Loving God will bestow on all of you His choicest Blessings.

HAPPY MOTHER'S DAY
