OFFICE OF THE WORKMEN’S COMPENSATION COMMISSION
AMERICAN SAMOA GOVERNMENT

APPROVAL OF CERTAIN TRAVEL EXPENSES FOR REIMBURSEMENT
UNDER WORKMEN’S COMPENSATION

With authority vested upon the American Samoa Workmen’s Compensation Commission (WCC) under Title 32: Chapter 6; Section 32.0619 of the A.S.C.A. to determine other types of expenses allowable for reimbursement under workmen’s compensation, I HEREBY AFFIRM AND CERTIFY the majority decision and approval by the WCC on September 23, 2020 to allow a specific percentage of the following travel expenses for reimbursement under workmen’s compensation, including authorization on the type of expenses considered allowable and unallowable for reimbursement. The WCC have also authorized the inclusion to allow only one escort or caregiver for reimbursement consideration.

Authorization are prohibited and denied for any pre-approval of a plea request made by a claimant to grant immediate services on any of these allowable transactions – regardless of reason. To qualify such allowable expense as a valid reimbursement claim, the claimant must prove that such expense was paid directly out of pocket.

The commencement of these reimbursements as part of a claimant’s claim will be effective on all claims filed on or after November 9, 2020, including current claims pending settlement or on-going deliberations after such date.

Any reimbursement claim for payment shall require evidential records of proof such as actual invoices and receipts of payments made. Failure to provide such proof automatically denies a claim for reimbursement – no exceptions. For claims file before the WCC, no expenses shall be approved for reimbursement if such expense is not heard, raised, or submitted during a claimant’s informal hearing(s).
